Describe Incident (attach additional pages if necessary) See Fuel Report on attachment.

On January 13th of 2022. I was sexually harassed by my team lead Ms. Christander Johnson. The form of harassment was by her purchasing two sexual toys meant to give women pleasure. One was a small vibrating rubber rose and the other was a long stem dildo rose. When I asked Ms. Johnson why did she feel the need to purchase and give me such a gift she stated I need dick in my life or some kind of release. Once Ms. Johnson realized I did not use the toys she became verbally aggressive and hostile making it extremely unbearable to work
